

**Necrology
of
Radio Personalities**

Compiled by

Jay Hickerson

Covered in this listing are those individuals who devoted most of their life to radio and those who were in movies, music and other areas who appeared on radio occasionally. This revision contains close to 3000 names, about 500 more than the last one. There are still many names that were not included because information was not found. Also there are names included which have incomplete information. Please send me all corrections and additions that you can.

All those known, who died, are covered.

There are four columns:

First name	Last name	Date of death	Age at death
------------	-----------	---------------	--------------

All corrections and additions are welcome. Supplements will be issued when appropriate. All information included before October 10, 1996.
